beNeering

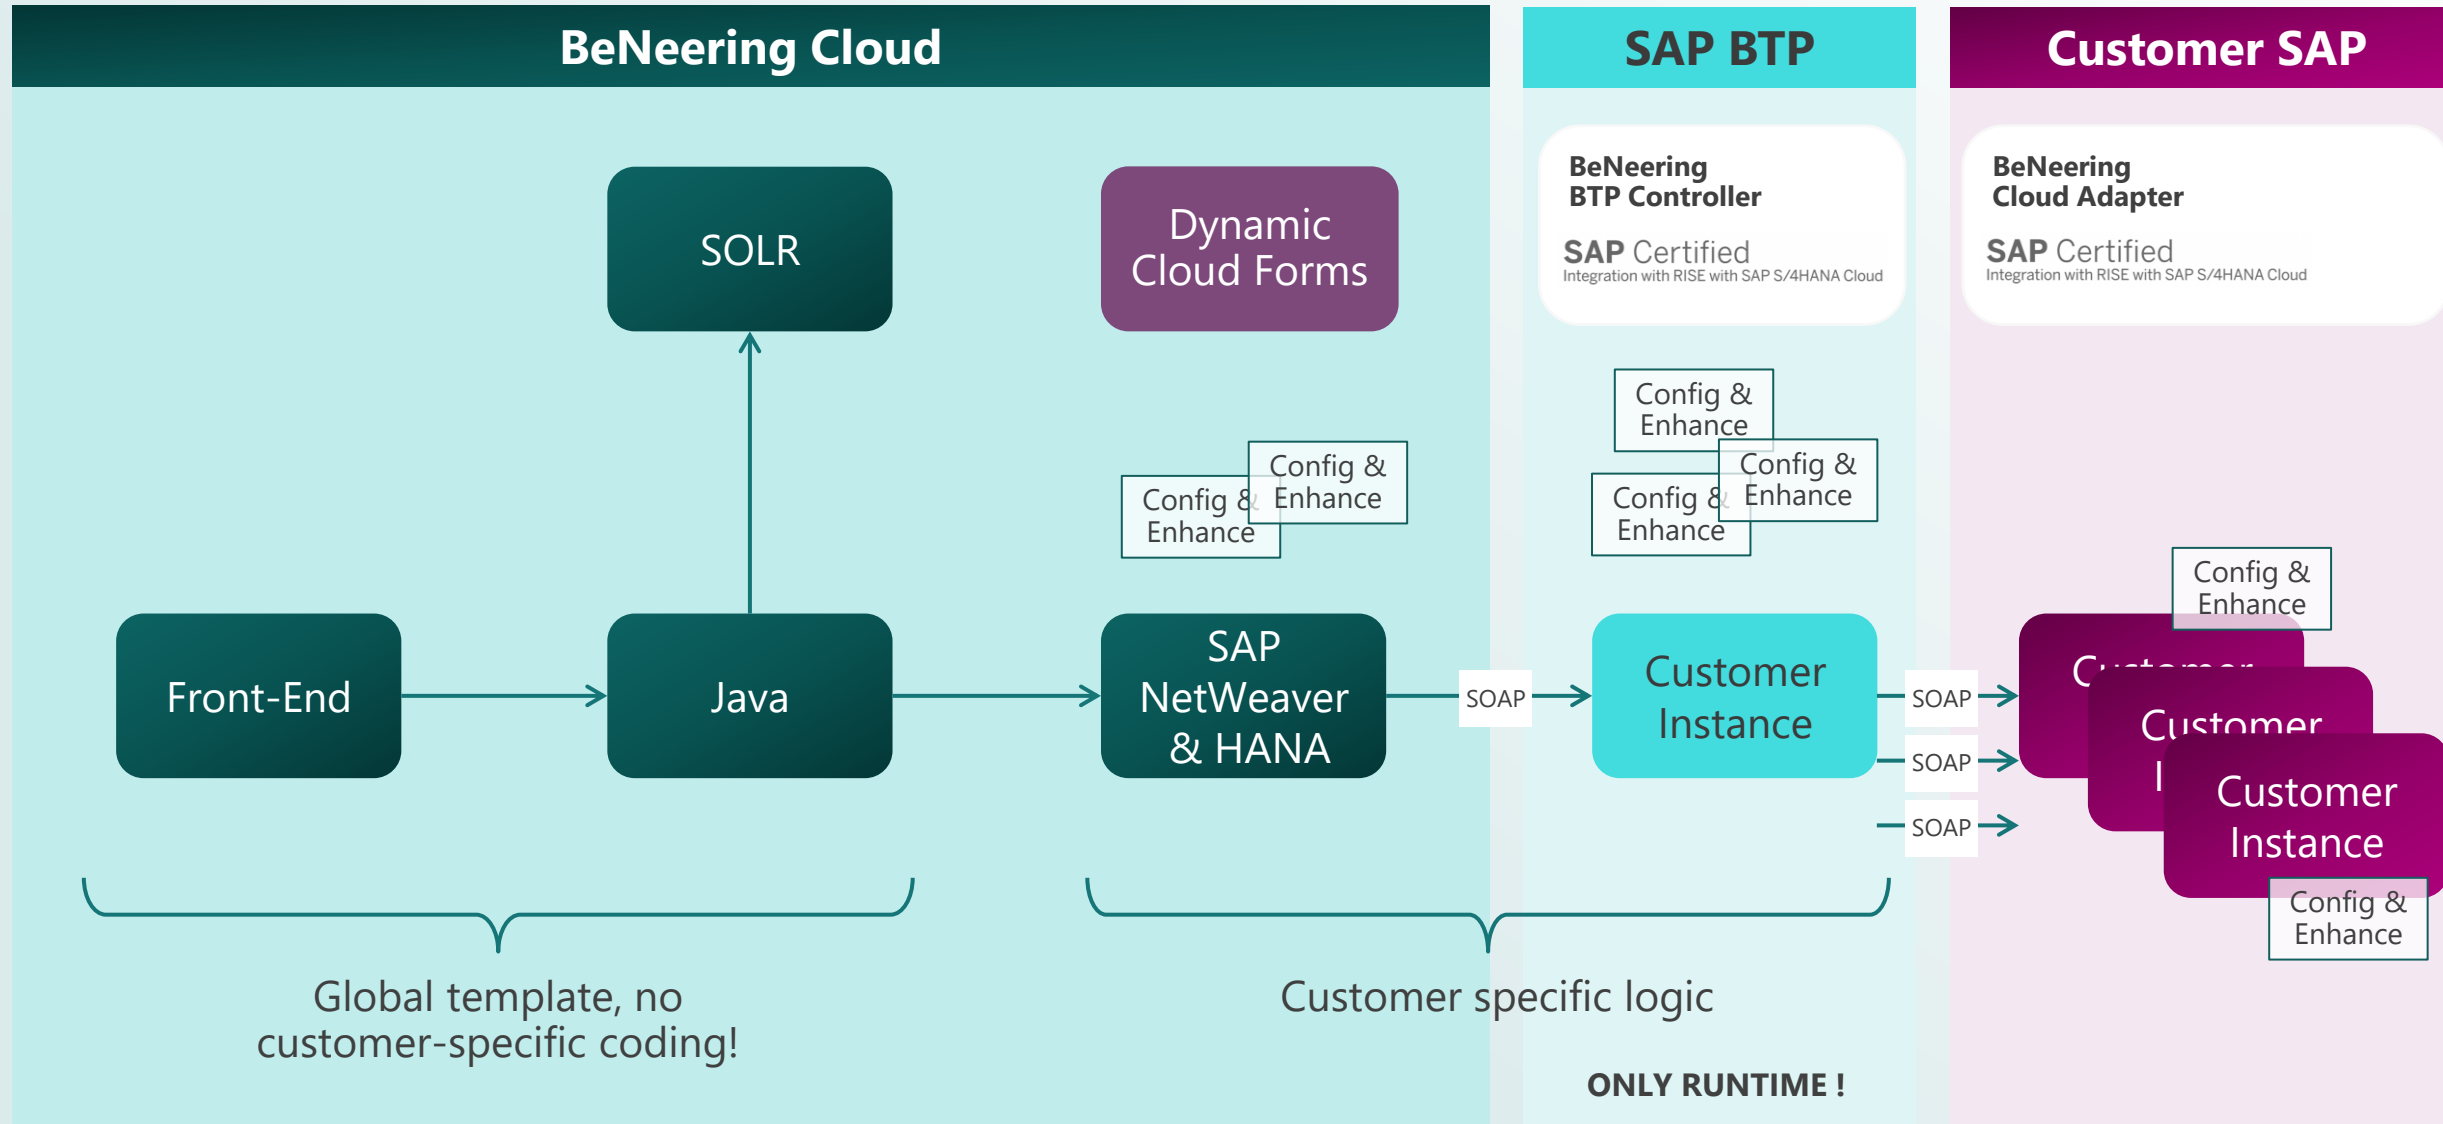

BeNeering Controller for SAP BTP

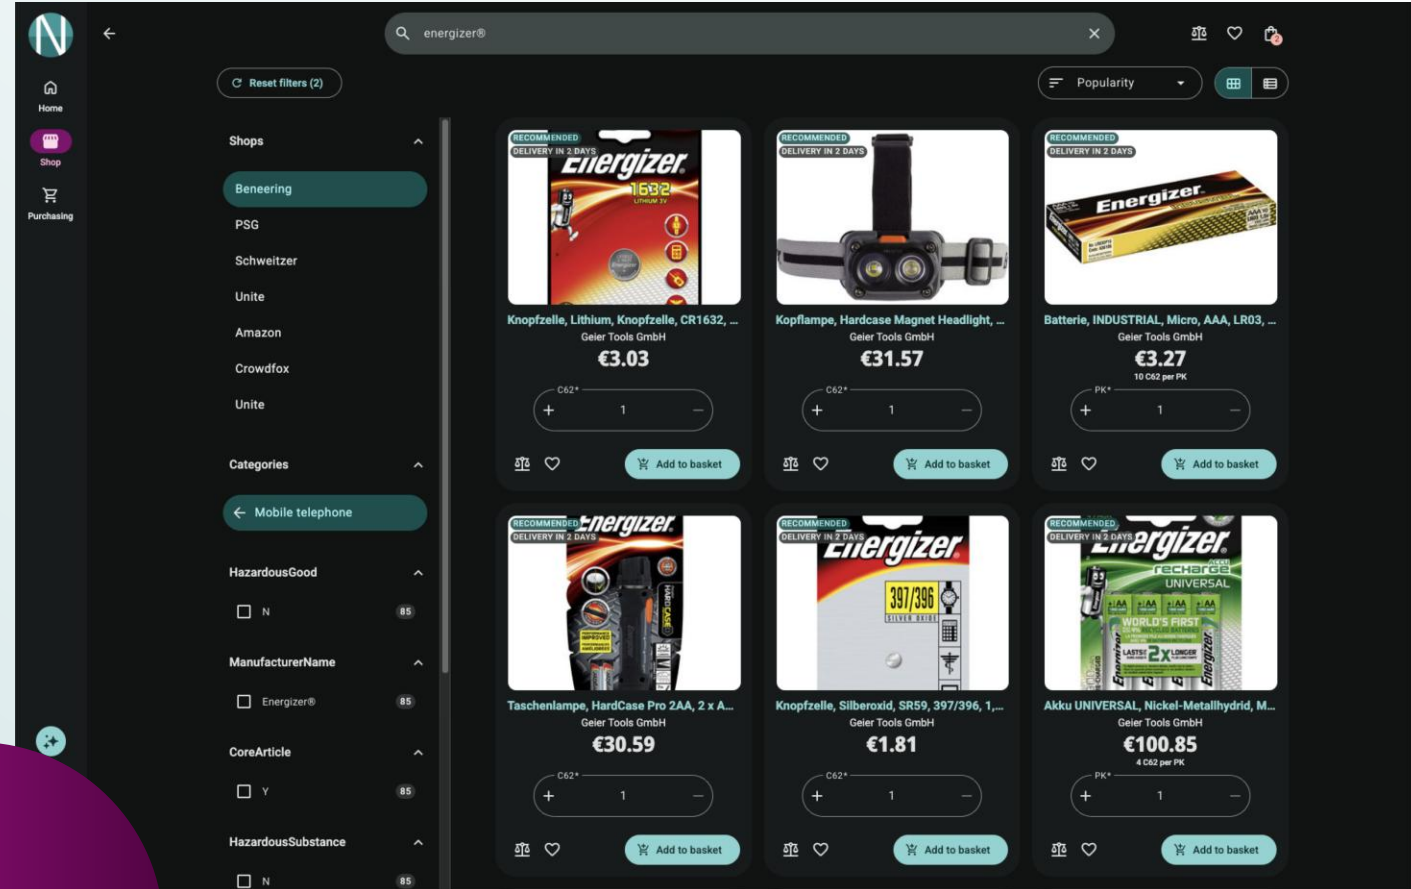

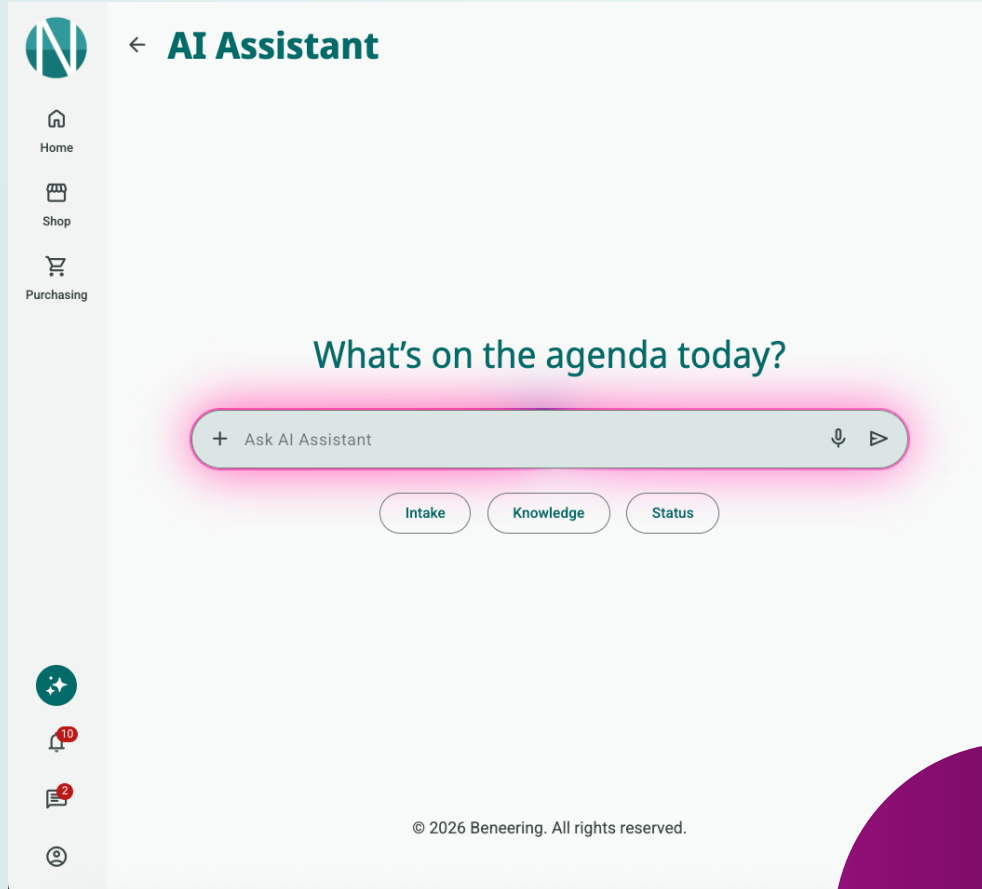

System architecture for Multi-Backend

Core Components, Customizing & Enhancement options

BeNeering NextGen UI

Launch
July 2026

Next Gen Experience

1

UI technology must be updated

- The technology of the old user interface is outdated and must be replaced
- Catering for higher security
- Better User Experience
- Enablement of new **SAP ERP Add-on for data exchange**
- Possibilities with AI

2

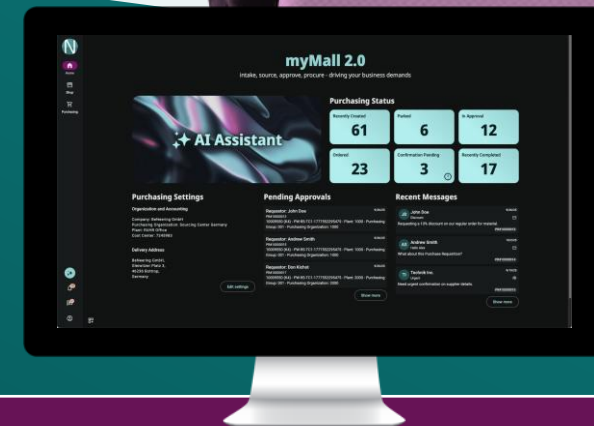

New UX Experience

- Better performance
- Improved look & feel
- Faster development cycles
- Following new standards Angular and Material Design

3

AI Orchestration

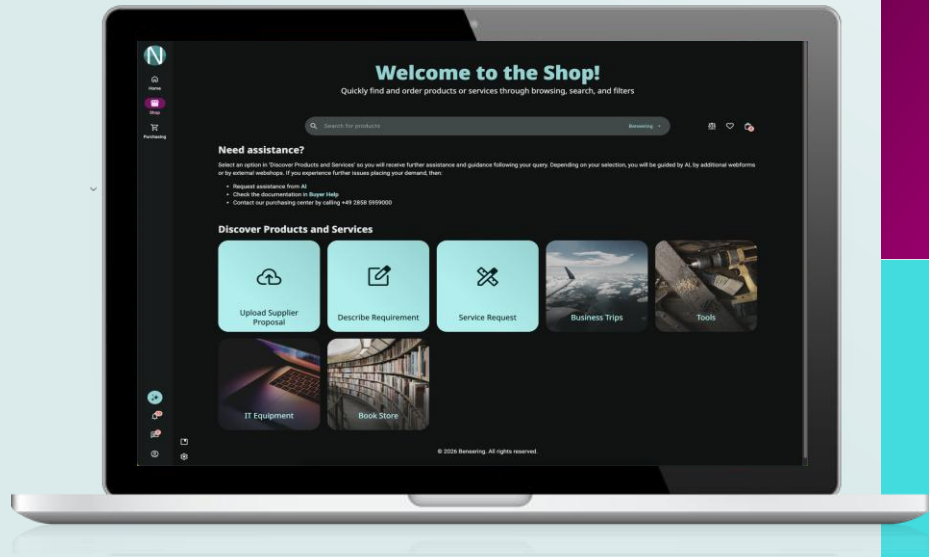

- Embedded into the new UI
- Embedded into backend processes

Embedded AI in BeNeering

UI:
Next Gen Experience

- As the role of AI is increasing B2B applications, we are adding AI navigation in a central place for simple and intuitive access
- AI experience is aligned to follow modern UI design supporting chat and canvas for contextual content
- AI agents as such are not always visible to the user, as they operate also in the background

Next Gen Experience – Landing Page

UI:
Next Gen Experience

- Widgets on landing page for most relevant information
- Purchasing Status
- Sourcing Status
- Pending Approvals
- Recent Messages
- Landing page can be personalized
- Black/Light mode

The mockup shows a dark-themed dashboard for 'myMall 2.0'. A left sidebar contains navigation icons for Home, Shop, and Purchasing. The main header features the 'myMall 2.0' logo and the tagline 'intake, source, approve, procure - driving your business demands'. Below the header, a large banner for the 'AI Assistant' is displayed. To the right of the banner is a 'Purchasing Status' section with six cards showing counts: Recently Created (61), Parked (6), In Approval (12), Ordered (23), Confirmation Pending (3), and Recently Completed (17). The bottom section is divided into three columns: 'Purchasing Settings' (with Organization and Accounting and Delivery Address details), 'Pending Approvals' (listing three requests with details like Requestor, PR#, and dates), and 'Recent Messages' (showing three messages from John Doe, Andrew Smith, and Technik Inc. with their subjects and PR#s). Each of these bottom sections has an 'Edit settings' or 'Show more' button.

Next Gen Experience — Shop

UI:
Next Gen Experience

- Search in Shop
- Shop navigation to various channels
 - Webforms
 - Service Request
 - Intake assistant

Next Gen Experience – Search Results

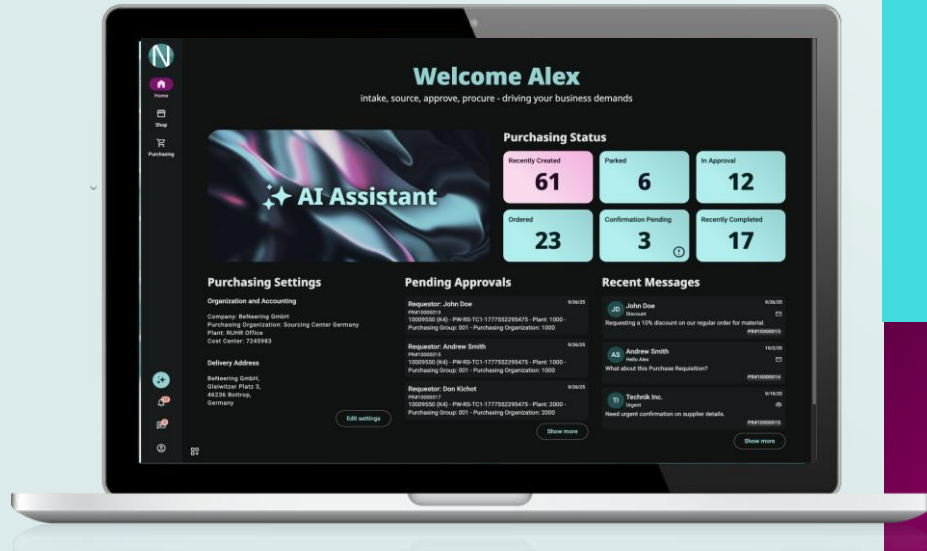

UI:
Next Gen Experience

- Intelligent query field
- Tile based or List based search results
- Dynamic Filters
- Embedded Market Place Search

The screenshot displays a user interface for a search results page. At the top, a search bar contains the text 'energizer®'. Below the search bar, there are navigation icons for Home, Shop, and Purchasing. A sidebar on the left lists various filters: Shops (Beneering, PSG, Schweitzer, Unite, Amazon, Crowdfox, Unite), Categories (Mobile telephone), HazardousGood (N), ManufacturerName (Energizer®), CoreArticle (Y), HazardousSubstance (N), and SupplierName. The main content area shows a grid of product tiles. Each tile includes a product image, a 'RECOMMENDED' badge, a 'DELIVERY IN 2 DAYS' badge, the product name, the supplier name (Geier Tools GmbH), the price, and an 'Add to basket' button. The products shown are: Knopfzelle, Lithium, Knopfzelle, CR1632, ... (€3.03), Kopflampe, Hardcase Magnet Headlight, ... (€31.57), Batterie, INDUSTRIAL, Micro, AAA, LR03, ... (€3.27), Taschenlampe, HardCase Pro 2AA, 2 x A... (€30.59), Knopfzelle, Silberoxid, SR59, 397/396, 1,... (€1.81), and Akku UNIVERSAL, Nickel-Metallhydrid, M... (€100.85). Each tile also features a quantity selector (C62* or PK*) and a heart icon.
