Highlights Gartner Magic Quadrant 2024

„ **ebidtopay** product is an **all-purpose purchasing solution for private and public sectors that covers both direct and indirect spend equally well**. Its operations are mainly located in Europe, and it tends to serve customers with \$100 million to \$3 billion in revenue. ebidtopay's investments are focused on the areas of prepackaged content of more than 4,500 searchable catalogs, building a mutualized database of supplier data and smart saving ideas as well as extending its AI and knowledge-based system components.“

„ **ebidtopay** has a **customer-friendly pricing** model that allows customers with smaller budgets to access their solution without losing functionality. Midmarket customers especially benefit from the **strong cost-to-capability ratio** compared to other options on the market.“

„Market Understanding — **ebidtopay's leadership has been in the S2P market for decades**. It has built a solution that addresses all spend types and supports a wide array of use cases. **ebidtopay has a practical view of what customers are looking for in a S2P** and has built its go-to-market strategy around delivering to customer needs.“

Spend Matters 3/24 scores ebidtopay – global Nr. 1 SME*
